

TERRA
VIVA

A yellow decorative element consisting of a central four-pointed star shape, with curved lines extending outwards to form a wider, flatter shape.

Concept

The creation of the **TerraViva identity** started with the ambition to represent and encapsulate all the **values** of the startup through the union of the simplest possible shapes and colors, achieved by a long process of **minimizing** the ideas gathered along the creative path. The final result is a mark with **geometric** yet **organic** shapes that can be modulated through infinite combinations, paired with a logotype characterized by a **modern** font that reflects all the characteristics of the project, all enhanced by a **dynamic** and **consistent** color palette.

Pictograms

The journey begins here, with the identification of the modular shape through the superimposition of a square and two circles. So simple, yet so interesting! The main characteristics of the shape are its versatility and reproducibility, both fundamental qualities for the development of the project.

The shape generates a wide variety of patten and combinations.

The main purpose of the generated shape is to represent in a **schematic** and **symbolic** manner the two words that make up the name 'TerraViva', but also to represent the company's two main fields of expertise: **architecture**, through the **geometricity** of the shape; and contact with **nature**, described by the **rounded** shapes and sinuous lines created through the patterns.

The result is two pictograms, consisting of the basic form repeated four times. The first pictogram represents the **Earth (Terra)** through the **circular** shape, the second represents **Life (Viva)** through the shape of a **spark**. Both figures can be identified in the empty space left in the centre of each pictogram.

The Logo

Mark

The mark is composed of the union of the two pictograms, representing the whole TerraViva identity.

TERRAVIVA

Logotype

The choice of font for the logotype fell on 'Miracle Fairway'. This font incorporates the characteristics of the brand, such as well-defined geometric shapes and sinuous, organic lines. It is also a very modern and fresh font, in line with the company's desire to aim at a young, dynamic target group.

Miracle Fairway

ABCDEFGHIJKLM
NOPQRSTUVWXYZ
abcdefghijklm
nopqrstuvwxyz

Font chosen for the logo and applicable for headlines and large texts. fresh, dynamic and youthful, suitable for web communication but also for print.

Ariata Display

ABCDEFGHIJKLM
NOPQRSTUVWXYZ
abcdefghijklm
nopqrstuvwxyz

A display font that matches well with the brand identity, suitable for smaller and longer texts, despite its simplicity it manages to retain the recognisable forms of the brand.

Colour palette

As well as the shapes, the colours were chosen to best represent TerraViva's values and characteristics. Blue is a colour that conveys intelligence, professionalism and precision, appropriate for a startup that deals with architecture.

Primary

Bright Blue

#0063E2

RGB: 0, 99, 226

CMYK: 85, 63, 0, 0

Green, on the other hand, was obviously chosen to represent the green side of the project, and coupled with blue it recalls the colours of the Earth. The choice of these colours is also due to their freshness and adaptability to the social network and web environments.

Primary

Lime Green

#B9EC84

RGB: 185, 236, 132

CMYK: 34, 0, 72, 0

Secondary

Baby Blue

#C7E4FF

RGB: 199, 228, 255

CMYK: 25, 4, 0, 0

Secondary

Deep Green

#184C23

RGB: 24, 76, 35

CMYK: 89, 42, 100, 47
