Tactical Urbanism Now! 2021 Competition

TerraViva Competitions launches TACTICAL URBANISM NOW! 2021, a new edition of the architecture competition that puts the focus on the transformation of public space all over the world. Prizes up to 7.000 ? will be awarded to the winners selected by an international jury panel composed by, among others, Arturo Mc Clean (Miralles Tagliabue EMBT), Liz Wreford (Public City), Francesco Garofalo (Openfabric), Hannah Klug (Intuy Lab);

Tactical Urbanism Now Competition 2021

Brief

Over the last decade, cities all around the world have experimented with a wide range of urban transformations through colourful, flexible and light interventions. Nowadays, it has become more and more common to come across these type of projects in both, small towns and metropolises.

Tactical Urbanism proposes an innovative design approach that aims to achieve long-term regeneration with short-term strategies. In certain cases, due to the positive impact that these interventions have generated in the urban realm, projects that were once thought of as temporary have now become permanent. Working at the scale of a street, a block or a building, tactical tools have the power to improve liveability citywide. Similar to the way acupuncture inserts needles into one part of the body to boost the well-being of the entire organism, these type of projects can actually lead to positive changes in an entire neighbourhood.
