Aufgabe	<p>Hybrid Coworking: Architecture Competition   The goal is to redesign existing cafés and restaurants by transforming their layouts – fully or partially – into a completely new concept that allows them to combine their regular functions with coworking uses.</p> <p>The idea of this competition represents the perfect opportunity to maximise underused spaces in order to offer more quality places for those nomad workers who are constantly looking for cool and innovative locations.</p> <p>Each designer will have the chance to choose its own site. The contest does not foresee a specific location for the project: you can select any existing bar, restaurant, pub or café that you prefer and which you believe could become a new amazing Hybrid Coworking.</p> <p>Think about how the old corner bar where you regularly take your coffee or the pizzeria near your house could evolve into a new generation of coworking without losing its original identity and function. Be creative and explore the endless possibilities of interior design!</p>
